Northern Va. Region
Dept. of Env. Quality

Dear Air Board,

I strongly support the proposal to keep the Potomac River Generating Station and improve it. I have been following this stack merge project for sometime, but was recently made aware of the plans to maintain the current plant and the technology to improve the air quality. I am in favor of this because it protects the jobs of the plant workers, the cost will not be put on the taxpayers as it will be covered entirely by Mirant, and it helps Alexandria and surrounding communities to maintain ample and adequate electrical supply.

As a 64 year retiree from Kira at Ft. Belvoir, as well as retired Military personnel, I appreciate the time and effort that has been put into this project. Both my wife and I support this effort and wanted to take this opportunity to take a stand for the plant and our community. We have been in Alexandria for 38 years and would like to see the plant stay.

I appreciate the time given to read my letter and know that this is one of many constituents who are in favor of keeping the plant. Thanks in advance and have a terrific day.

Regards,

Alvin Wilson
